## Experience

### Co-founder & Lead Developer – GestionaMiNegocio · 2020–Present

- Designed and implemented a SaaS architecture with Symfony 7, Next.js, API Platform, and Docker.
- Built automated workflows (CI/CD pipelines, testing, authentication).
- Developed integrations with external APIs (e-invoicing, REST/GraphQL).
- Achieved a 70% reduction in production errors and onboarded 8+ beta users.

### Program Specialist – VITA LIBER S.L.U · 2021–Present

- Migrated legacy systems to modern architecture **Symfony 7**.
- Developed **REST APIs** and managed MariaDB databases.
- Automated testing workflows.
- Applied **Docker** and **CI/CD pipelines**

### Consultant & Tech Lead – Fastbyte SL · 2019–Present

- Designed **scalable architectures** and modernized legacy systems.
- Led microservices design, APIs, and system integrations.
- Provided consulting in **DevOps, infrastructure, and cloud/VPS optimization**.

### AI & Automation Projects – Freelance · 2023–Present

- Built **RAG systems** and automated pipelines with **n8n**.
- Integrated **local models and OpenAI Platform** with SaaS apps.
- Designed **multi-SaaS automated workflows** (Slack, Twilio, external APIs).

### Other roles:

- Developer – 240dots (2020–2023) · API integrations and WordPress/Next.js projects.
- Webmaster – Seedstockers (2023–2024) · Managed multilingual e-commerce on PrestaShop.

## Profile

Full-stack and infrastructure engineer with 5+ years of experience in SaaS-heavy environments, specialized in workflow automation, APIs, and system integrations. Hands-on expertise with VPS/AWS, Docker, CI/CD, Python, Node.js, Symfony, and automation with n8n. Proven track record leading projects that combine backend development, infrastructure, and SaaS workflows to deliver scalable, secure, and efficient solutions.

## Certifications

- Zend Certificate of E-Learning – PHP OOP & Software Patterns** (2025).

## Skills

- Infrastructure:** VPS (strong expertise), AWS, Docker, CI/CD, Linux administration.
- Automation & Integrations:** n8n, SaaS APIs (Twilio, Slack, PrestaShop, WordPress), OpenAI Platform.
- Languages:** PHP (Symfony, Laravel), JavaScript/TypeScript (React, Next.js, Node.js), Python, Shell scripting.
- Databases:** MySQL, MariaDB, MongoDB, ElasticSearch.
- Testing & DevOps:** Jest, Playwright, PHPUnit, Git/GitLab, Jira.
- Languages:** Spanish (native), English (professional).
